Product Overview

High-Performance Intercooler for 2012 D-MAX

This high-performance car intercooler is specifically engineered for the 2012 All New D-MAX model to enhance overall engine efficiency and power output. Featuring a robust core design, it provides optimal heat dissipation to maintain consistent engine temperatures during operation. The unit is built with durable end tanks and designed for a precise, direct-fit installation, making it an ideal choice for performance upgrades or reliable replacements.

Compatibility & Fitment

Installation

Direct Fit • Easy Installation

Compatible Vehicle

2012 All New D-MAX
