

Car ISO Wire Harness for Hyundai

This car ISO wire harness is designed for seamless integration with Hyundai vehicles. It features a robust construction with multiple color-coded wires, ensuring accurate and reliable connections.

Product Overview

Seamless Integration for Hyundai

This automotive wire harness is specifically designed to facilitate seamless integration within Hyundai vehicle electrical systems. Featuring robust construction with color-coded wiring, it ensures accurate and reliable connections for car audio systems and other essential electrical components. The harness provides a secure and efficient solution for professional installations.

Technical Details

Connector Types

- Dual white connector (End 1)
- Brown and black connector combination (End 2)

Vehicle Compatibility	Hyundai
Construction Features	Color-coded wires, Robust construction, ISO compliant

Applications

Primary Applications

Car Audio Systems • Automotive Electrical Integration
