

Car Shark Fin Antenna

This sleek car shark fin antenna enhances a vehicle's aesthetic appeal and provides reliable signal reception. Its aerodynamic design reduces wind resistance and noise.

Product Overview

Aerodynamic Shark Fin Antenna

This sleek car shark fin antenna is designed to enhance your vehicle's aesthetic appeal while providing reliable signal reception. Its aerodynamic profile effectively reduces wind resistance and noise during driving. Constructed from durable ABS plastic, this antenna is built to withstand various weather conditions for long-lasting performance.

Technical Specifications

Material	ABS Plastic
Model Number	AT916

Installation & Compatibility

Installation	Adhesive backing (No drilling required)
Compatibility	Universal fit, Most car models

Key Features

Primary Benefits

- Aerodynamic design
- Reduces wind noise
- Weather-resistant construction
- Easy, non-invasive installation
