

Car Shark Fin Antenna

This sleek car shark fin antenna enhances a vehicle's aesthetics while ensuring reliable signal reception. Its aerodynamic shape reduces wind resistance and noise.

Product Overview

Aerodynamic Shark Fin Antenna

This sleek shark fin antenna is engineered to enhance vehicle aesthetics while maintaining reliable signal reception. Its aerodynamic design effectively minimizes wind resistance and noise during driving. Constructed from durable ABS plastic with a high-quality glossy finish, this unit is built to resist fading and cracking over time.

Technical Specifications

Material	ABS Plastic
Finish	Glossy
Model Number	AT917

Features & Compatibility

Key Benefits

- Aerodynamic shape reduces wind noise
- Fade and crack resistant
- Secure and seamless fit
- Stylish aesthetic upgrade

Installation	Adhesive backing
Compatibility	Universal Fit, Most Car Models
