

Carbon Steel Slip-On Flange

This carbon steel slip-on flange is available in sizes from 1/2 inch to 88 inches. It is constructed from carbon steel, including A105(N) C22.8 ST-37.2 S400 P245/50/65GH A695 A350LF.

Product Overview

Carbon Steel Slip-On Flange

This carbon steel slip-on flange is engineered for reliable pipe connection in diverse industrial environments. Featuring a circular design with a central bore for efficient pipe insertion and multiple bolt holes for secure attachment, it ensures stability and durability. The slip-on configuration simplifies installation and alignment, making it an ideal choice for various low-pressure piping systems including plumbing and HVAC.

Technical Specifications

Material	Carbon Steel
Flange Type	Slip-On
Application Suitability	Plumbing, HVAC, Low-pressure systems

Key Features

Performance Highlights

1 High Installation Ease	1 High Alignment Efficiency
------------------------------------	---------------------------------------

Material Benefits

- Excellent strength
- Corrosion resistance
- Durable construction
