

Carburetor Cleaner Spray

This carburetor cleaner effectively removes greasy dirt, gum, and carbon deposits on PVC valves, EGR valves, chokes, and other parts. It cleans carburetors and chokes without removal from the engine and dissolves and removes varnish, gum, and carbon deposits.

Product Overview

High-Performance Cleaning Solution

This powerful carburetor cleaner spray is designed to effectively remove greasy dirt, gum, and carbon deposits from critical engine components. It is safe for use on PVC valves, EGR valves, and chokes, allowing for maintenance without the need to remove the carburetor from the engine. The formula also helps free sticky valves and lifters, ensuring optimal engine performance while remaining safe for catalytic converters and oxygen sensors.

Technical Details

Net Volume	450 ml
Product Code	40055-1

Features & Compatibility

Application Areas

- Carburetors
- Choke valves
- PVC valves
- EGR valves
- Engine valves and lifters

Safety Compliance	Catalytic Converter Safe, Oxygen Sensor Safe
-------------------	--

Performance Metrics

Key Cleaning Capabilities

- Dissolves varnish
- Removes gum deposits
- Cleans carbon buildup
- Removes greasy dirt
- Frees sticky valves and lifters
