

Carburetor Cleaning Fluid

This carburetor cleaner is engineered to eliminate varnish, gum, and buildup from carburetor components. It ensures peak engine performance and enhanced fuel economy.

Product Overview

High-Performance Cleaning Solution

This carburetor cleaning fluid is engineered to effectively dissolve and remove stubborn deposits, varnish, and gum from critical carburetor components. By restoring cleanliness to the fuel system, it helps ensure optimal engine performance and improved fuel efficiency. The formula is versatile and suitable for use across a wide range of carburetor types and automotive applications.

Technical Specifications

Model Identifier	M-0155
Application	Carburetor Maintenance, Fuel System Cleaning

Performance Features

Key Benefits

- Removes varnish and gum deposits
- Restores engine performance
- Improves fuel efficiency
- Compatible with various carburetor types
