Overview

High-Performance Engine Carburetor

This replacement carburetor is engineered for precision and durability, ensuring optimal fuel and air mixture for small engine applications. Designed to match original equipment standards, it provides reliable performance, improved throttle response, and enhanced fuel efficiency. It is an ideal solution for maintenance and repair of GX140, GX160, and 1P64F engine models.

Compatibility

Compatible Engine Models	GX140, GX160, 1P64F
--------------------------	---------------------

Technical Details

Construction Quality

High-Quality Material • Durable • Long Service Life

Part Identifier	CC600257
-----------------	----------

Installation

Installation Characteristics

- Easy to install
- Highly matches original equipment
- Reliable operation
- Includes necessary installation components
