

# Carburetor for Mazda NA B1600

Carburetor designed for Mazda NA B1600 engines. It ensures optimal fuel delivery and air-fuel mixture for improved engine performance and efficiency.

## Product Overview

### High-Performance Carburetor for Mazda NA B1600

This high-performance carburetor is precision-engineered for Mazda NA B1600 engines, ensuring optimal fuel delivery and an ideal air-fuel mixture for improved engine efficiency. Designed to meet or exceed OEM specifications, it serves as a reliable direct replacement, making it ideal for engine restoration or performance upgrades. Its durable construction guarantees long-lasting operation and consistent performance under various driving conditions.

## Technical Details

### Key Features

- Direct replacement for easy installation
- Engineered for optimal fuel delivery
- Durable construction for long-term reliability
- Meets or exceeds OEM specifications

OEM Part Number	1942-13-600
Compatible Engine Model	Mazda NA B1600
Stamped Markings	215282-62, 42 4 08, 236
