

Cargo and Passenger Tricycle with Step-Through Frame

This tricycle is designed for cargo and passenger transport. It features a step-through frame, front basket, rear cargo bed with passenger seat and backrest, headlight, and mirrors, suitable for urban or neighborhood use.

Product Overview

Versatile Cargo and Passenger Solution

This cargo and passenger tricycle features a convenient step-through frame, ensuring effortless mounting and dismounting for daily operators. Designed for urban environments, it combines practical utility with comfort, offering a front storage basket and a secure rear cargo area equipped with a passenger seat and backrest. Its stable configuration makes it an ideal vehicle for neighborhood transport and small-scale logistics.
