Product Overview

Reliable Cargo Restraint

This heavy-duty cargo lashing strap with a ratchet mechanism is engineered for secure load fastening across road, rail, sea, and air transportation. Constructed from 100% high-tenacity polyester, it offers superior wear resistance, low elongation, and flexibility for safe transit. The system is GS tested and approved by TÜV, ensuring compliance with international safety standards for professional logistics applications.

Key Features

Low Elongation • Wear-Resistant • Flexible • Quick Adjustment

Technical Specifications

Suitable for Transportation

- Road
- Rail
- Sea
- Air

Material	100% Polyester
Breaking Strength	1000 lbs
Webbing Width	1 inch

Compliance & Standards

Standards & Certifications	DIN 60060, EN12195-2, GS Tested, TÜV Approved
