Product Overview

Professional Grade Cargo Securing

These cargo securing ratchet straps are essential tools designed for robust load restraint in transportation and industrial operations. Constructed from durable high-strength polyester webbing and featuring a reliable ratchet mechanism, they offer superior stability for various applications. With compliance to international standards like BSEN12195-2:2001, these straps provide the safety and adaptability required by logistics, construction, and agricultural sectors.

Technical Specifications

Key Performance Metrics

2000 daN Lashing Capacity (LC)	6000 daN Breaking Force	250 daN Standard Tension Force (STF)	7 % Max Elongation @ LC
--	-----------------------------------	--	-----------------------------------

Physical Dimensions

Metric	Value
Length	8 meters / 27 feet
Material	Polyester Webbing
Attachment	Metal Hooks

Compliance & Usage

Safety Warnings

- Not for lifting
- Intended for lashing purposes only

Primary Applications

Trucking & Logistics • Construction • Agriculture • Household Moving • Event Setup • Recreational

Certifications

CE, DOT, BSEN12195-2:2001
