

Cargo Transport Tricycle

This tricycle is designed for transporting cargo. It features a fully enclosed cab and a rear cargo bed.

Product Overview

Professional Cargo Transport Solution

The LD800ZH cargo transport tricycle is a versatile vehicle engineered for efficient short-distance goods distribution. Featuring a fully enclosed cab with integrated headlights, side mirrors, and a protective windshield, this tricycle offers enhanced operator comfort and safety. Its rear cargo bed is specifically designed for reliable transport, making it an ideal choice for urban logistics and small-scale freight operations.
