

Carton Sealing Machine

This carton sealing machine is designed for efficient and reliable sealing of cartons. Adjustable height and width settings accommodate different box dimensions, and it utilizes top and bottom tape heads for simultaneous sealing.

Overview

Efficient Carton Sealing Solution

This semi-automatic carton sealing machine is designed for reliable and efficient packaging operations. Featuring adjustable height and width settings, it easily accommodates a wide range of box dimensions. The system utilizes top and bottom tape heads for simultaneous, secure sealing, while its robust construction and integrated safety features ensure consistent performance in high-volume environments.

Performance

Conveyor Speed

20 M/min

Max Conveyor Speed

Power Requirements

- AC 220V/50Hz
- 110V/60Hz
- Power Consumption: 120w x 2

Technical Specifications

Packing Capacity

Dimension	Range
Packing Length	e200mm
Packing Width	100-500mm
Packing Height	110-650mm

Physical Dimensions & Weight

- Shipment Dimension: 1170 x 1000 x 1190mm
- Net Weight: 165kg
- Gross Weight: 225kg

Adhesive Tape Width

60 mm
