

Cast Iron Cylindrical Sight Glass JIS F7218

This cast iron cylindrical sight glass is made to JIS F7218 standards. It allows visual monitoring of fluid flow in marine environments.

Product Overview

JIS F7218 Cylindrical Sight Glass

The JIS F7218 series cylindrical sight glass is engineered for the visual inspection of fluid flow within marine piping systems. Constructed with a durable cast iron body and toughened glass, it provides reliable performance and clear visibility even in demanding marine environments. This component is designed to meet strict JIS standards, ensuring compatibility and safety for various marine applications.

Technical Details

Standard	JIS F7218
Body Material	Cast Iron
Internal Components Material	Stainless Steel
Glass Type	Toughened Glass
Application	Marine, Fluid Flow Inspection

Dimensions and Weight

Dimensions (JIS 5K)

Nominal Bore (mm)	Mass (kg)
15	2.07
20	2.27
25	2.53
32	3.05
40	3.25
50	3.77
65	4.29
80	5.13
100	6.3
125	7.4
150	9.1
200	12.1
