

Cast Iron G-Clamp

This G-clamp is made with a heavy-duty cast iron frame for strength and durability. It is suitable for woodworking, metalworking, and general-purpose applications.

Product Overview

Sturdy and Durable Clamping Solution

This heavy-duty G-clamp is engineered with a robust cast iron frame, ensuring superior strength and long-lasting durability for demanding tasks. It features a precision-threaded spindle that allows for accurate and consistent clamping pressure, making it an essential tool for woodworking, metalworking, and general-purpose applications. The integrated swivel pad is designed to distribute pressure evenly across the workpiece, effectively preventing surface damage while securing materials firmly in place.

Technical Specifications

Material	Cast Iron
Available Sizes	8 inch
Country of Origin	China

Key Features

Key Features

- Robust cast iron frame
- Precision threaded spindle
- Swivel pad for even pressure distribution
- Damage-preventing contact surface

Recommended Applications

Woodworking • Metalworking • General Purpose
