Overview

Industrial Cast Iron Globe Valve

This robust cast iron globe valve is engineered for reliable flow control in industrial piping systems. Designed for both shut-off and throttling applications, it features a durable cast iron or ductile iron body and bonnet construction. With flanged connections, this valve ensures a secure and stable installation suitable for water, oil, and gas environments.

Technical Specifications

Nominal Diameter Range	DN40 - DN300
Pressure Ratings	PN10, PN16, 125LB, 150LB

Materials & Construction

Body and Bonnet Material	Cast Iron / Ductile Iron
Disc Material	Stainless Steel
Operation Type	Manual Handwheel

Standards & Compliance

Certifications ISO 9001 • SGS • TS	
Design Standards	DIN3202, ANSI

Performance Metrics

Key Performance Indicators

16 bar

Standard Pressure Rating

300 DN

Max Nominal Diameter
