Product Overview

Cast Iron Water Pump

This cast iron water pump is a robust and reliable solution designed for conveying clear water in various demanding environments. Engineered for efficiency, it is suitable for industrial and urban water supply, irrigation systems, and fire-fighting pressurization. Its durable cast iron construction ensures longevity, resistance to wear and tear, and stable operation for agricultural and industrial water management.

Applications

Suitable Applications

Farmland Irrigation, Industrial Water Supply, Urban Drainage, HVAC Systems, Fire-fighting Pressurization, High-rise Water Supply

Technical Details

Key Features

- Corrosion resistant housing
- Easy maintenance design
- Consistent performance output
- High-pressure capability

Housing Material

Cast Iron

Compatible Fluids

Clear Water
