

Casting and Forging Shackle

This shackle is engineered for casting and forging applications, providing secure lifting and connections. Its durable construction ensures reliability in demanding industrial environments.

Product Overview

High-Strength Casting and Forging Shackle

This high-strength shackle is engineered specifically for demanding casting and forging applications. Constructed from durable, heavy-duty materials, it provides reliable lifting and connection capabilities suitable for industrial environments. With a comprehensive range of sizes from U-7 to U-50, this product accommodates various load requirements, ensuring safety and performance in heavy-duty operations.

Performance Metrics

Failure Load Range

70 kN

Minimum Failure Load

500 kN

Maximum Failure Load

Weight Range

0.5 kg to 7.0 kg

Technical Dimensions

Size and Dimension Specifications

Type	d (mm)	H (mm)	Failure Load (kN)	Weight (kg)
U-7	20	80	e70	0.5
U-10	22	85	e100	0.6
U-12	24	90	e120	1
U-16	26	95	e160	1.47
U-21	30	100	e210	2.3
U-25	34	110	e250	2.8
U-30	38	130	e300	3.7
U-50	44	150	e500	7

Usage

Ideal Applications

Casting, Forging, Heavy-duty Industrial, Lifting, Connection
