

Cat6 Ethernet Cable

This Cat6 Ethernet cable is designed for reliable data transmission in networking applications. It supports Gigabit Ethernet speeds and reduces crosstalk for optimal performance.

Product Overview

High-Performance Networking Solution

This Cat6 Ethernet cable is engineered for robust data transmission in both home and professional office environments. Featuring 100% bare copper conductors, it supports high bandwidths up to 550 MHz, ensuring reliable performance for Gigabit and 10-Gigabit Ethernet applications. The snagless design and gold-plated contacts provide long-term durability and secure connectivity for critical network components.

Technical Specifications

Cable Type	CAT6 4-Pair UTP
Conductor Material	100% Bare Copper
Conductor Gauge	24 AWG
Connector Type	RJ45
Contact Plating	Gold Plated
Cable Structure	Stranded

Performance Metrics

Max Bandwidth

550 MHz
Frequency

Compliance & Standards TIA/EIA 568-C.2, RoHS, UL Code 444, PoE Compliant, VoIP Compliant

Physical Dimensions

Connector Dimensions

Dimension	Value
Width	11.6 mm
Height	14.3 mm
Length	40 mm

Outside Diameter	5.8 mm
------------------	--------

Compatibility

Supported Network Devices

- PCs & Servers
- Routers & Switch Boxes
- Network Printers
- NAS Devices
- VoIP Phones
- PoE Devices
- Media Players
