Cat6A RJ45 Ethernet Patch Cable

This Cat6A Ethernet patch cable is designed for demanding network environments. It supports data transfer rates up to 10 Gigabit Ethernet and a bandwidth of 550MHz.

Overview

High-Performance Networking

This Cat6A RJ45 Ethernet patch cable is engineered for demanding network environments, offering 10-Gigabit Ethernet support and backward compatibility with Fast and Gigabit Ethernet. Featuring SSTP/SFTP shielded construction, it effectively minimizes electromagnetic interference and crosstalk to ensure reliable data integrity. Designed with gold-plated contacts and strain-relief boots, this durable cable is ideal for high-speed applications ranging from data centers and server rooms to professional office setups and multimedia streaming.

Technical Specifications

Bandwidth Capacity

550 MHz
Max Bandwidth

Shielding Type
SSTP • SFTP

Data Transfer Rate	10 Gigabit Ethernet
Standards Compliance	TIA/EIA 568-C.2

Connectivity

Compatible Devices

- PCs
- Computer Servers
- Routers
- Switch Boxes
- Network Media Players
- NAS
- VoIP Phones
- PoE Devices

Connector Type	RJ45

Construction

Conductor Material	Bare Copper
Durability Features	Gold-plated contacts, Strain-relief boots, Shielded connectors
