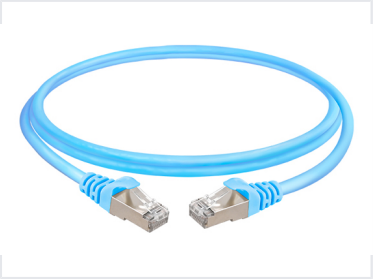
CAT6A Unshielded Ethernet Patch Cord

This high-performance CAT6A unshielded patch cord ensures reliable data transmission with reduced crosstalk and enhanced signal integrity. It is ideal for 10 Gigabit Ethernet applications and features durable construction and snag-resistant connectors for long-lasting performance.



Product Overview

High-Performance Connectivity

This CAT6A unshielded patch cord is engineered for demanding network environments, ensuring reliable data transmission with reduced crosstalk and enhanced signal integrity. It is specifically designed to support 10 Gigabit Ethernet applications, making it an ideal choice for data centers and enterprise networks. Featuring durable construction and snag-resistant connectors, this cable offers both longevity and ease of installation for high-bandwidth setups.

Technical Specifications

Connector Type	RJ-45
Contact Material	Gold-plated metal
Plug-in Cycles	750

Material & Compliance

Sheath Material

- PVC
- LSZH

Compliance Certifications	RoHS, REACH

Rooms 05–15, 13A/F South Tower, World Finance Centre, Harbour City, 17 Canton Rd, Tsim Sha Tsui, Kowloon, Hong Kong
