

# CE EN175 Compliant Welding Goggles

These welding goggles are designed to provide eye protection during welding operations. They are compliant with CE EN175 standards and feature flip-up lenses.

## ADDITIONAL IMAGES

## Product Overview

### Professional Welding Eye Protection

These welding goggles are designed to provide essential eye safety for professional welding environments. Compliant with EN175 standards, they feature a versatile flip-up screen design that allows for quick transitions between shaded and clear vision. Built with a flexible PVC frame and an adjustable elastic strap, these goggles ensure a secure, comfortable fit for extended use.
