

Ceiling-Mounted Air Conditioning Unit

This ceiling-mounted air conditioning unit is designed for refrigeration and ventilation. It provides efficient air distribution and climate control for indoor environments and is suitable for commercial or industrial applications.

Product Overview

Professional Climate Control

This ceiling-mounted air conditioning unit is engineered for high-performance refrigeration and ventilation in commercial or industrial settings. Its streamlined rectangular design and white finish ensure a clean, unobtrusive integration into existing ceiling structures. Designed for efficiency, the unit provides uniform air distribution to maintain optimal climate conditions for indoor environments.

Technical Specifications

Design Features

- Rectangular profile
- White grille finish
- Horizontal air vent

Installation

Ceiling-Mounted

Applications

Commercial, Industrial, Refrigeration, Ventilation
