

Ceiling Mounted Concealed Air Conditioning Unit

This ceiling-mounted air conditioning unit is designed for efficient and discreet climate control. It features a low-profile design for seamless integration into ceiling spaces, minimizing visual impact while maximizing performance.

Overview

Discreet Climate Control Solutions

This ceiling-mounted concealed air conditioning unit is engineered for high-performance cooling and heating with a focus on aesthetic integration. Its low-profile design allows for seamless installation within ceiling voids, making it an ideal choice for both residential and commercial projects where visual impact must be minimized. Featuring a high-efficiency heat exchanger and a quiet fan system, it ensures consistent comfort without the noise or clutter of traditional units.

Key Features

Core Performance

0 Slim

Low Profile Design

Main Features

- High-efficiency heat exchanger
- Quiet-operation fan system
- Concealed ceiling mounting
- Accessible service panels

Design & Installation

Design Profile

Low-Profile • Discreet • Seamless Integration

Mounting Type

Ceiling Mounted Concealed
