

Ceiling Mounted Exhaust Fan for Bathrooms

This ceiling-mounted exhaust fan is designed for bathroom or similar applications. It is designed for efficient air extraction and ventilation in enclosed spaces.

Product Overview

Efficient Bathroom Ventilation

This ceiling-mounted exhaust fan is engineered specifically for bathroom environments and other enclosed spaces requiring consistent air exchange. Featuring a clean, white aesthetic with a dense grille pattern, it integrates seamlessly into standard ceiling finishes. The unit includes a robust duct connector designed for secure attachment to existing ventilation infrastructure, ensuring effective moisture and odor removal.

Physical Specifications

Mounting Style	Ceiling Mounted
Design Features	White Grille, Rectangular Air Intake, Duct Connector Included

Application

Recommended Use

- Residential Bathrooms
- Small Enclosed Spaces
- Ventilation Systems
