

# Ceiling-Mounted Ventilation Fan with Exhaust Duct

This ceiling-mounted fan is designed for household ventilation. It features a square grille with angled slats arranged concentrically and a cylindrical duct connector for exhaust.

## Product Overview

### Efficient Ventilation Solution

This ceiling-mounted ventilation fan is an essential appliance for maintaining air quality in residential and commercial spaces. Featuring a durable white housing and an integrated cylindrical duct connector, it is specifically engineered for effective moisture removal and air circulation. Its sleek, square grille design with concentric slats ensures optimal airflow, making it an ideal choice for bathrooms, kitchens, and other high-humidity areas.

## Design & Build

Mounting Type	Ceiling-Mounted
Color/Finish	White
Grille Design	Square with concentric slats

## Technical Specifications

Recommended Applications	Bathroom, Kitchen, General Ventilation
Primary Function	Exhaust Ventilation
Duct Connection	Cylindrical
