Product Overview

High-Performance Cement Mill Roller Assembly

This industrial-grade roller assembly is engineered for demanding cement production environments, offering enhanced durability and wear resistance. Designed to serve as a high-performance replacement for both imported and domestic grinding components, it ensures efficient mill operation. With a proven service life that exceeds standard market alternatives, this assembly is a reliable choice for maintaining operational integrity in cement and power generation facilities.

Compatibility

Supported Mill Types

- FL Smidth ATOX
- Loesche LM
- GEBR. PFEIFFER
- MPS
- RM
- CKP
- MLS
- MPF
- TRM
- HRM
- ZGM
- HP
