

# Cement Production Line Construction

The development of the cement industry has led to the modernization and large-scale transformation of cement engineering. Mainstream cement production lines have evolved significantly since the mid-1990s.

## Overview

### Comprehensive Cement Production Line Construction

We provide large-scale cement engineering construction services specializing in high-capacity production lines ranging from 2,000 t/d to over 10,000 t/d. Our expertise covers the entire project lifecycle, including civil engineering, mechanical and electrical installation, and sophisticated project management. By utilizing modern management concepts, we focus on shortening construction cycles and reducing investment costs while ensuring high-quality engineering standards for global industrial projects.

## Technical Capabilities

### Production Line Capacity

**2000 t/d**

Minimum Capacity

**10000 t/d**

Maximum Capacity

### Scope of Services

- Civil Engineering
- Mechanical Equipment Installation
- Electrical System Installation
- Steel Structure Construction
- Furnace Building & Refractory Work
- Heavy Lifting & Equipment Positioning
- Contract & Risk Management

## Quality & Standards

### System Certifications

ISO 9000 • ISO 14000 • OHSAS 18001 • UKAS Authentication • TGA Authentication

### Management Systems

Quality Management, Environmental Management, Occupational Health and Safety

## Expertise & Personnel

### Technical Personnel

- Electrical Engineers
- Mechanical Engineers
- Civil Engineering Specialists
- Professional Welders
- Furnace Builders
- Heavy Lifting Operators

### Management Expertise

- Planning & Statistics
- Material Management
- Financial Management
- Risk Control

## Project Performance

### Market Experience

Project Scale	Market Experience Level
Above 2,000 t/d	Over 80% market share in segment
Above 5,000 t/d	Over 90% market share in segment
10,000 t/d Lines	Multiple successful implementations

### International Presence

Active in over 50 international project construction sites worldwide.
