

Centrifugal Fan Impeller

This is a blue plastic centrifugal fan impeller. It is designed for use in HVAC systems, cooling devices, and other equipment requiring efficient air movement.

Product Overview

High-Efficiency Centrifugal Fan Impeller

This centrifugal fan impeller is engineered for optimal air handling and efficient airflow management. Featuring a durable plastic construction and a precision-curved blade design, it is built to withstand the demands of various HVAC and cooling applications. Its robust central hub ensures stable operation, making it an ideal component for equipment requiring consistent and reliable air movement.

Physical Characteristics

Material	Durable Plastic
Design Features	Curved Blades, Central Hub, Ventilation Holes

Applications

Common Applications

- HVAC Systems
- Cooling Devices
- Air Handling Equipment
