

Centrifugal Juice Extractor with Pulp Container

This centrifugal juicer efficiently extracts juice from fruits and vegetables, separating pulp into a dedicated container. It features variable speed control, optimizing juice extraction for different types of produce.

Product Overview

High-Efficiency Centrifugal Juicer

This centrifugal juice extractor is designed for efficient juice extraction from a wide variety of fruits and vegetables. Featuring a durable stainless steel and black plastic housing, it includes a dedicated pulp container for easy waste management. With variable speed controls and a transparent feeding chute, it offers professional-grade performance and ease of use for any kitchen environment.

Technical Specifications
