

Centrifugal Water Pump

This centrifugal pump is designed for industrial applications. It features a cast iron casing and stainless steel impeller, suitable for pumping clean water and non-corrosive liquids.

Product Overview

NFM Series Centrifugal Pump

The NFM Series Electric Pump is a robust and efficient centrifugal solution engineered for demanding industrial environments. Constructed with a durable cast iron casing and a stainless steel impeller, it ensures long-lasting performance when handling clean water or non-corrosive liquids. Designed for versatility, this pump provides high flow rates and reliable pressure, making it an ideal choice for water supply systems, agricultural irrigation, and various industrial processes.

Technical Specifications

Suitable Fluids

- Clean Water
- Non-corrosive Liquids

Construction Materials

Cast Iron Casing, Stainless Steel Impeller

Connection Type

Flanged

Maintenance

Designed for easy installation and maintenance
