

Centrifugal Water Pump - Cast Iron Body, 80°C Max Fluid Temperature

This centrifugal water pump is designed for high delivery rates with low to medium heads in industrial and agricultural settings. Its volute impeller enables the pumping of water that is even fairly dirty.

Type	Power		H max (m)	Q max (l/min)
	HP	kW		
SHF4A	0.5	0.37	9	320
SHF4B	0.75	0.55	14	380
SHF4C	1	0.75	19	440
SHF4A	1.2	0.9	14.5	480
