

Centrifugal Water Pump for Irrigation

This centrifugal water pump is designed for drainage and irrigation applications. Its robust construction includes multiple ports for versatile plumbing configurations, making it suitable for agricultural machinery.

Product Overview

High-Efficiency Irrigation Centrifugal Pump

This stainless steel centrifugal water pump is engineered for reliable performance in demanding agricultural and drainage applications. Featuring a robust motor and versatile plumbing configurations, it provides consistent flow and durability for irrigation systems. The unit includes intake and output fittings, making it a ready-to-install solution for modern agricultural machinery.

Technical Specifications

Body Material	Stainless steel
Motor Finish	Blue
Primary Applications	Irrigation, Drainage, Agricultural Machinery

Components

Included Fittings

- Black plastic intake fitting
- Black plastic output fitting
