

Ceramic Barrel Curling Iron

This curling iron is designed for creating a range of hairstyles, from tight curls to loose waves. It features adjustable temperature settings from 140°C to 220°C and a ceramic-coated barrel for even heat distribution.

Overview

Professional Ceramic Curling Iron

This professional-grade curling iron features an ultrafine barrel designed for precision styling, allowing for everything from tight curls to loose waves. The tourmaline ceramic-coated barrel ensures even heat distribution to minimize hair damage and frizz, while the ergonomic design includes a 360-degree swivel cord for effortless maneuverability. With five adjustable heat settings and an integrated auto-shutoff feature, this tool offers both versatility and safety for professional salon or home use.
