Product Overview

Robust Electrical Connectivity

This European standard electrical socket is engineered for reliable power transmission and distribution. Constructed with high-quality bakelite, it offers durability and safety for residential, commercial, and industrial applications. The design ensures a secure and stable connection, minimizing accidental disconnections while maintaining optimal conductivity.

Technical Specifications

Rated Current	16 A
Rated Voltage	250 V
Frequency	50/60 Hz

Materials & Construction

Material Composition

- Bakelite housing
- Copper internal components
- Iron grounding

Features

Key Features	European Standard, Durable Construction, Secure Connection, Spring-loaded mechanism
