

Ceramic Fan Heater with Overheat Protection

This ceramic fan heater offers two heating settings: 750W and 1500W, plus a normal fan mode. It uses a PTC heating element and includes overheating protection and a power indicator light.

Product Overview

Compact Ceramic Heating Solution

This ceramic fan heater is designed to provide efficient, rapid, and consistent warmth for personal spaces such as offices or small rooms. It features advanced ceramic heating technology paired with fan-assisted circulation to ensure even heat distribution. Built with safety in mind, the unit includes integrated overheat protection and an adjustable thermostat for customized comfort.
