

Ceramic Plate Hair Straightener

This hair straightener features ceramic plates that ensure even heat distribution for smooth styling. It includes adjustable temperature settings, rapid heat-up, and automatic shut-off for enhanced safety.

Product Overview

Professional Ceramic Hair Straightener

This professional-grade hair straightener features high-quality ceramic coated plates designed for even heat distribution and smooth, snag-free gliding. Equipped with a reliable PTC heater, it reaches a maximum temperature of 200°C to ensure efficient styling results. The ergonomic design includes a lockable handle and a 360° swivel cord, providing both ease of use and convenient storage for busy professional environments.
