Product Overview

Direct replacement air filter designed for high-performance engine maintenance.

Premium Air Filtration for CFMoto Engines

This high-performance air filter is engineered specifically for CFMoto CF800 engines, including the CF188 800cc model. Designed to safeguard your engine from dust, dirt, and harmful debris, it ensures consistent, high-quality airflow for optimal combustion. By maintaining cleaner engine conditions, this replacement part contributes to enhanced fuel efficiency and prolonged engine lifespan, making it a critical component for routine ATV and UTV maintenance.

Compatibility

CFMOTO
CF 500/ 600/ 800/ 1000

High Quality Parts & Kits by Nihao Motor

Engineered for superior filtration across CF500 to CF1000 engine series.

Vehicle Suitability

- ATV
- UTV
- Quad

Engine Compatibility

CF 500, CF 600, CF 800, CF 1000, CF188 800cc

Technical Specifications

CFMOTO
CF 500/ 600/ 800/ 1000

High Quality Parts & Kits by Nihao Motor

Durable materials ensure reliable debris protection for off-road vehicles.

Model Identification

TZ-64

Installation Note

Verify compatibility with specific year of manufacture before installation, as parts may vary by model year.
