

CG125 Motorcycle Engine Side Cover

This motorcycle engine side cover is designed for CG125 models. It protects the engine components and provides a mounting point for other parts.

Product Overview

CG125 Engine Side Cover

This engine side cover is specifically engineered for the CG125 motorcycle model. Crafted from durable aluminum alloy, it serves as a critical protective shield for internal engine components while providing a stable mounting point for peripheral parts. Its circular design ensures a precise fit for standard CG125 engine configurations.

Technical Specifications
