Product Overview

Professional Soil Preparation

This heavy-duty chain harrow is engineered for efficient soil cultivation and robust weed control in various agricultural and landscaping environments. Its durable frame design features interconnected chain links that ensure thorough soil coverage and effective debris agitation. Designed for tractor attachment, it provides reliable performance for maintaining optimal soil tilth and preventing weed growth.

Application Fields Agriculture, Landscaping, Soil Preparation, Weed Control

Mounting Tractor-mounted

Technical Specifications

| Model | GHW-1 | GHW-2 | GHW-3 | GHW-4 |
|-------------------|--------|--------|--------|--------|
| Width | 1350mm | 2000mm | 4000mm | 5000mm |
| Net Weight | 75kg | 112kg | 223kg | 278kg |
