

Chainsaw Engine Cylinder

This chainsaw cylinder is engineered for optimal engine performance. Its durable construction features cooling fins for efficient heat dissipation and precisely machined ports for enhanced gas flow.

Product Overview

High-Performance Chainsaw Cylinder

This precision-engineered chainsaw cylinder is designed to deliver optimal engine performance for 45cc chainsaw models. Built with efficient cooling fins for superior heat dissipation, it ensures reliable operation even in demanding working conditions. The cylinder features precisely machined intake and exhaust ports to enhance gas flow, resulting in increased power output, lower fuel consumption, and reduced emissions.

Technical Specifications

Engine Displacement	45 cc
Compatible Model Series	4500 Series

Performance Features

Performance Highlights

45 cc
Displacement

Key Performance Benefits	High Power Output, Low Fuel Consumption, Low Emission, Efficient Heat Dissipation
