

Chalk Line Reel

This chalk line reel is used for marking long, straight lines on flat surfaces. When pulled taut and snapped, the chalk-coated string leaves a chalk line on the surface.

Product Overview

Professional Chalk Line Reel

This chalk line reel is an essential tool for construction, carpentry, and layout professionals. Designed for marking long, straight lines on flat surfaces, it features a durable housing and a chalk-coated string. Simply pull the string taut, position it, and snap it to leave a clean, precise chalk line every time.
