

Chemical Equipment Storage Cabinet

This storage cabinet is designed for chemical equipment and machinery. It features robust construction, internal shelving, and a keyed locking mechanism for security.

Overview

Secure Chemical Storage Solution

This durable and secure storage cabinet is specifically engineered for the organization and protection of chemical equipment and machinery. Featuring robust construction and reliable keyed locking mechanisms, it ensures the safety of sensitive materials in demanding environments. It is an ideal asset for laboratories, industrial facilities, and workshops requiring organized, secure storage.

Physical Characteristics

Construction	Robust heavy-duty design
Shelving	Yes

Security & Features

Security Level	Secure • Lockable
Locking System	Keyed locking mechanism
Target Environments	Laboratory, Industrial, Workshop
