

# Children's Bicycle with Training Wheels

This bicycle is designed for children who are learning to ride. It includes training wheels and a backrest for added stability and support.

## Product Overview

### Designed for Young Riders

This children's bicycle is specifically engineered to support young riders as they learn to navigate on two wheels. Featuring a sturdy frame and reliable training wheels, it offers both safety and stability during the initial learning stages. The vibrant color scheme and integrated basket make it an appealing choice for active children.
