

Children's Bicycle with Training Wheels and Basket

This children's bicycle includes a front basket and training wheels. It features a step-through frame, adjustable seat and handlebars, multi-colored tires, a chain guard, and a rear reflector.

Product Overview

Designed for Young Riders

This children's bicycle is specifically engineered to support young riders as they learn to navigate on two wheels. Featuring a convenient step-through frame design, it ensures easy mounting and dismounting for added safety and confidence. The inclusion of training wheels, a front basket, and adjustable components makes it a practical choice for growing children.
