

Children's Bicycle with Training Wheels and Basket

This children's bicycle is equipped with training wheels and a front basket. It features a high-back seat with support bars for added safety.

Product Overview

Designed for Young Riders

This children's bicycle is specifically engineered to support young riders as they learn to pedal and balance. Featuring a sturdy red frame and stable training wheels, it provides a safe and engaging platform for beginners. The inclusion of a front basket and decorative flame accents makes it an appealing choice for children, while the high-back seat with support bars ensures comfort during practice sessions.
