

Children's BMX Bicycle with Fenders and Rack

This children's BMX bicycle has a step-through frame and a blue and white color scheme. It is equipped with front and rear fenders, a rear rack, a chain guard, a padded BMX-style seat, and upright handlebars.

Product Overview

Designed for Young Riders

This 20-inch BMX bicycle is built with a sturdy steel frame, ensuring long-lasting durability for active children. It comes fully equipped with essential safety features including reliable caliper brakes and protective fenders. The inclusion of a rear rack and chain guard makes it a practical and versatile choice for daily recreational riding.
