

# Children's Pink and White Bicycle with Training Wheels

This child's bicycle features a pink and white frame, a yellow seat, and training wheels. It is designed with a step-through frame, single-speed drivetrain, and caliper brakes.

## Product Overview

### Designed for Young Riders

This children's bicycle is specifically engineered for toddlers and young children learning to ride. Featuring a charming pink and white aesthetic, the bike includes essential safety features like a chainguard and training wheels to build confidence. The step-through frame design allows for easy mounting and dismounting, while the upright handlebar position ensures a comfortable and stable riding experience.
