

# Children's Steel Frame Bicycle with Training Wheels

This bicycle is designed for young riders and features a durable steel frame. It includes training wheels for stability, front and rear fenders, a comfortable seat, and easy-to-grip handlebars.

## Product Overview

### Designed for Young Riders

The HW-TC-01 is a robust children's bicycle engineered with a durable steel frame to provide long-lasting reliability. It includes essential stability features like training wheels, making it an ideal choice for beginners learning to ride. With adjustable components and safety additions such as fenders, reflectors, and a bell, this bicycle ensures a comfortable and secure experience as the child grows.
